

Carol Hung, DVM

Dr. Carol Hung earned her Doctor of Veterinary Medicine degree from the Ontario Veterinary College in Guelph, graduating with distinction in 2015. After graduation, she worked in general practice at several busy clinics in London, Caledon and Toronto. While in clinical practice, she developed strong interests in nutrition, dermatology, and internal medicine. In December 2019, Dr. Hung joined Nestle Purina PetCare as a full-time veterinarian, following a desire to focus on nutrition. In her role as Veterinary Communications Manager, she provides educational support for veterinary schools and clinics from Ontario to Saskatchewan, and technical support for Purina's veterinary division.

She currently resides in Scarborough, Ontario with her husband and her newly adopted cat named Ramone. When Carol is not working, she loves to travel, hike, scuba dive, and do brush lettering!
